

05 March 2008

Mr. Andre Wilsenach
Chief Executive Officer (CEO)
Alderney Gambling Control Commission (AGCC)
Maison Des Venelles,
Les Venelles des Gaudions,
Alderney, Channel Islands,
GY9 3TW

Dear Mr. Wilsenach,

RE: TST Certification of GameAccount RNG

This Certification Letter pertains to Technical Systems Testing (TST)'s evaluation and resultant certification of GameAccount's Random Number Generator (RNG), for use within the jurisdiction of Alderney, as regulated by the Alderney Gambling Control Commission (AGCC).

TST's evaluation was performed with the aim of verifying compliance with any applicable requirements from the following set of standards and specifications:

1. The Technical Standards Document (TSD) for online gambling within the jurisdiction of Alderney: AGCC's ***Internal Control System Guidelines for eGambling, Version 1.4.2, August 13, 2007***,
2. Generally-accepted industry standards for highly-regulated jurisdictions, and
3. GameAccount's technical specifications for their RNG.

The scope of work for the evaluation of GameAccount's RNG included (but was not necessarily limited to) the following implementation and design elements:

- General RNG Analysis,
 - Submitted Documentation Review,
 - Source Code Read,
 - Theoretical Mathematics Analysis,
 - Assessment of the RNG Period,
 - Determination of the RNG Range,
 - Investigation of the Seeding / Re-Seeding, and
 - Inspection of the Background Cycling / Activity.
- DIEHARD Battery of Tests, and
- Final Outcome Distribution Tests.

TST successfully completed the evaluation of GameAccount's RNG on 05 March 2008.

TST has verified, through mathematical and statistical analysis, within a 95.0% confidence interval (this is a documented interval of confidence for such statistical analysis), that GameAccount's RNG distributes numbers with sufficient non-predictably, fair distribution and lack of bias to particular outcomes.

The evaluation has shown that GameAccount's RNG produces a statistically acceptable source of random numbers for the following games / applications:

Mathematical Degrees of Freedom (DOFs)	Associated Games / Applications
51	Hi-Lo Solitaire
415	Pro BlackJack
51	Fortune52 Keno
36	Roulette
51	Gin Rummy
5	Backgammon
5	Hypergammon
2, 3, 5 & 18	In the Grid
207	Multi-Player Blackjack
179 & 100	Skill Slots, Bonus

Subject to the inherent confines of a laboratory compliance evaluation of this type, TST certifies that GameAccount's RNG meets or exceeds any applicable requirements from the set of standards and specifications listed above. Accordingly, TST certifies GameAccount's RNG for use within the jurisdiction of Alderney, as regulated by AGCC.

TST's evaluation was limited to the laboratory environment, and was performed using a particular version of GameAccount's RNG. TST's evaluation was based on specific information and materials (including, but not necessarily limited to, source code, software, hardware, configurations, documentation and general correspondence), as submitted to TST throughout the duration of the evaluation. For verification purposes, TST has maintained a control version (or the means of verifying the control version) of all information and materials as listed above.

Assuring you of our best attention at all times.

Yours sincerely,

Mr. Noah Turner
Chief Technical Officer (CTO)
